Season of Illness

As we are approaching the cold weather, it is the time in which illness is rampant. I would like to bring to your attention that there has been a case of hand, foot and mouth reported to me within our school community, and it has been noted that the virus is sweeping through Darebin with many cases reported. Whilst this presents as feeling very uncomfortable and general unwellness, it is also often accompanied by fever, sore throat, lethargy and finally sores. It is very important that we all stay vigilant to washing our hands and reducing physical contact. This virus is highly contagious and once contracted, the person needs to be quarantined from others for 3-4 days. The virus spreads quickly among children. We will make sure that there is soap in the toilets and have provided each class with hand sanitiser. Please encourage the children to wash their hands.

If you are unwell or unsure, it is recommended you consult with your doctor as soon as possible.

Lights, Camera, Action

This Thursday there will be a film crew at St Gabriel's.

We will be creating a promotional video for our school, showcasing some of the great learning that takes place at our school.

Some of the students will be asked to contribute to the promotional video by sharing some thoughts. There will also be some snippets of staff and parents.

Once complete the video will be posted on our website to show how great St Gabriel's is. If you have any questions please come and see me.
